Fire Protection

**10 11 12** April 2025

Jio World Convention Centre, Mumbai

Plan . Prevent . Protect

# WELCOME TO FIRE SAFE BUILD INDIA (FSBI) 2025

NuernbergMesse India is glad to announce the third edition of Fire Safe Build India (FSBI), an event dedicated to passive fire protection. A notable increase in fire incidents, influenced by diverse factors, has led to substantial losses in lives and property. This underscores the critical importance of implementing and adopting passive fire protection measures more than ever before. Immerse yourself in a comprehensive display of cutting-edge products and technologies. FSBI stands as a vital platform where industry leaders, professionals, and innovators come together to foster collaboration and showcase preventive fire safety advancements.

The global passive fire protection market size was \$4.41 billion in 2023 & is projected to grow from \$4.62 billion in 2024 to \$6.68 billion by 2032. The market growth is anticipated to be driven by the growing importance of fire safety and increasing regulatory compliance in commercial buildings, industrial spaces, and the oil & gas sector.

Engage in a dynamic conference program at FSBI, featuring insightful panel discussions, expert presentations, and hands-on workshops led by pioneers in the passive fire protection field. Gain a deeper understanding of market trends, explore the latest technological breakthroughs, and address the challenges and opportunities shaping this rapidly evolving industry.

## EXHIBITOR PROFILE

### INNOVATIVE SOLUTIONS & THE LATEST PRODUCTS ON DISPLAY IN PASSIVE FIRE PROTECTION (Preventive Fire Protection)

- **Fire Rated Materials** - Walls, Ceilings, Flooring, Facades, Doors, Partitions, Glazing, Panels, Curtain Walls, Cladding, Fire / Smoke Curtains.
- **Fire Stopping** - Cavity Barriers, Collar / Wrap, Sealant, Mortar, Coatings, Insulation, Foam, Pipe Sleeves.
- **Electrical Installation** - Cables, Cable Ducts, Cable Support Routing Systems, Cable Bandage, Fire Protection Cabinets.
- **Ventilation / Smoke Extraction** – Fire Dampers, Ventilation Ducts, Heat extraction Systems, Smoke Exhaust & many more...

## TESTIMONIALS

"Fire Safe Build India has created an excellent platform for various stakeholders to understand the passive fire protection requirements within buildings. The diverse products displayed in the booths are highly informative and can be implemented to enhance building safety. The discussions happening within the conference will undoubtedly contribute to the improvement of passive fire protection systems. Recommendations from international guests and speakers will help improve our codes and standards in the future."

**Santosh Warick - Maharashtra Fire Service**

"I would say that this is the greatest event I could have imagined happening in India. This specific exhibition brings together professionals who are interconnected and dependent on each other. We are grateful for the organization of such an event, and we are honoured to be here. Most of the contractors and potential clients are present, making this the perfect time to participate, especially since India and its market are booming."

**Elena Guseva - Stabiterm**

## WHO SHOULD ATTEND?

- **Architects & Design Consultants:** Enhance your designs with the latest passive fire protection technologies to ensure compliance and safety.
- **Design, Procurement, and Manufacturing Heads from Aerospace/Aircraft, Automobile, and Marine & Ship Building Industries:** Discover specialized fire protection solutions tailored to your industry's unique needs.
- **Engineering Procurement & Construction Consultants (EPC):** Learn about the newest fire-resistant materials and systems to integrate into your construction projects.
- **Mechanical Electrical Plumbing Consultants (MEP):** Stay updated on fire protection standards and technologies relevant to MEP systems in buildings.
- **Project Management Consultants (PMC):** Gain insights on managing and implementing passive fire protection measures in various types of projects.
- **Public Sector Undertakings (PSU):** Understand the importance of fire safety in public sector projects and explore compliant fire protection solutions.
- **Specifiers:** Find the best passive fire protection products to specify for your projects, ensuring optimal safety and performance.
- **Structural Consultants:** Discover how to incorporate passive fire protection into structural designs for enhanced safety and integrity.

"This is a very important event, and I know this is the second edition. We have already seen significant development since the first edition. FSBI have provided an excellent platform where professionals and young people in development can interact. Architects can learn from the experts, and we teach what is necessary. We also aim to highlight the differences that the right products can make. In the event of a fire, every minute counts, and this awareness is crucial."

**José Zaman - Fire View**

# PROMINENT BRANDS AT FSBI
